Demonstration of Proposed Features

Student: Ansh Shrivastava   Project: Global Electric Vehicle Market Intelligence Dashboard

Date: 28 October 2026   Team: Individual Project

Feature checklist

• Market overview KPI cards — Planned; demonstrate after workbook completion.

• Annual EV sales trend — Planned; validate sales field and year coverage first.

• Category and manufacturer ranking — Planned; rankings depend on available sales data.

• Battery technology and driving range analysis — Planned; check chemistry and range units.

• Manufacturing country analysis — Planned; standardize country labels.

• Customer ratings comparison — Planned; include only if rating field exists and is comparable.

Implementation summary

Proposed features: 6. Implemented: not yet verified. Demonstrated: not yet verified. Implementation rate: cannot be calculated until features are built and tested.

Evidence note: This is a project plan/documentation template. Add actual dataset source, screenshots, measured test results, and publication links only after completing and verifying the implementation.
